Sustainability is at the heart of her creative practice. She grows willow & flax and uses these in her weaves and also takes care to use yarns that are produced organically where possible.

Are you an artist, designer or maker living and working in Central Fife?

We are always open to applications from professional artists who live and work in Central Fife. We accept applications once at the start of the year. Invitations to join will be shared on our social media and website. Applications are reviewed by our committee in early April. For more information about how to apply, and full eligibility criteria, please visit the 'Join Us' page - cfac.org.uk/joining-us

Our events, including Open Studios and events at the Adam Smith Theatre are self-funded by participant fees and managed by a small and hard working team of volunteer committee members.

All CFAC events aim to:

- Raise awareness of the talent and diversity of art and design practice within the Central Fife Area
- Provide unique experiences for visitors
- Connect with fellow creatives

Taking part in Open Studios and other CFAC events is hard work but also great fun! As a participant you will benefit from being able to sell your work directly to the public, take commissions, demonstrate your practice, discuss your work and inspirations, sign visitors up to classes, make contacts with galleries and benefit from the opportunity to hear feedback from the public directly about your work.
